Last Updated: July 2024

I am a machine learning researcher, working on graph clustering and deep learning problems. Previously, I held academic positions in an Australian institute and a Saudi university, where I designed computer science courses for both master's and undergraduate levels.

## EDUCATION

<b>Doctor of Philosophy - PhD, Computer Science</b> , <i>The University of Sydney</i> , Thesis title: " <a href="#">Graph Filtering and Automatic Parameter Selection for Efficient Spectral Clustering</a> ."	<b>2017 – 2021</b>
<b>Master of Science, Computer Science</b> , <i>King Fahd University of Petroleum and Minerals (KFUPM)</i> , Thesis title: " <a href="#">Human In-Place Action Recognition using Combination of Kinect Data Streams</a> ."	<b>2013 – 2016</b>
<b>Bachelor of Science, Computer Science</b> , <i>University of Hail</i> ,	<b>2005 – 2010</b>

## SKILLS

<b>Research &amp; Development</b>	1st author in <a href="#">13+ research papers</a> , <a href="#">70+ verified reviews</a> on Web of Science.
<b>Technical</b>	Previously Java and Matlab, currently using Python's ML libraries (pytorch, jax, flax, PyG, scikit-learn).
<b>Curriculum design</b>	Designing CS courses following Australian Qualifications Framework (AQF) and Saudi Arabia's NCAAA.
<b>Social media</b>	12K+ views and 250+ watch hours for my <a href="#">YouTube</a> educational videos; 40+ stars on my <a href="#">Github</a> .

## PROFESSIONAL EXPERIENCE

<b>Curriculum Development Collaborator</b> <b>Sydney Polytechnic Institute</b> <ul style="list-style-type: none"><li>• Participated in curriculum development for a Master of Data Science and Bachelor of Computing.</li><li>• Designed the outline and planner documents for courses: Database Systems (U211), Cybersecurity and Information Assurance (U312), and Full-stack development (U322).</li></ul>	<b>Jul 2023 – Present</b> <b>Sydney, Australia</b>
<b>Machine Learning Researcher</b> <b>Freelance</b> <ul style="list-style-type: none"><li>• Working on machine learning research with researchers from the University of Sydney and KFUPM.</li><li>• Our research focuses on Graph Convolutional Network (GCN) and Unsupervised Domain Adaptation (UDA).</li><li>• Designed experiments using python ML libraries (pytorch, jax, flax, scikit-learn).</li></ul>	<b>Jun 2022 – Present</b> <b>Riyadh, Saudi Arabia</b>
<b>Assistant Professor</b> <b>University of Hail</b> <ul style="list-style-type: none"><li>• Participated in curriculum design and lecturing for multiple graduate and undergraduate computer science courses.</li><li>• Adapted new teaching strategies to teach the following courses: data structures (ICS202), advanced database (ICS434), and machine learning for big data (CSAI510).</li></ul>	<b>Jan 2021 – Jun 2022</b> <b>Hail, Saudi Arabia</b>
<b>Curriculum Development Collaborator</b> <b>Sydney Polytechnic Institute</b> <ul style="list-style-type: none"><li>• Participated in curriculum development for a Master of Data Science.</li><li>• Designed lecture slides, assignments, practical sessions, and exams for courses: Database Systems and Infrastructure (MDS604), Mathematics for data science (MDS602), and Artificial Intelligence and Innovation (MDS607).</li></ul>	<b>Sep 2020 – Mar 2021</b> <b>Sydney, Australia</b>
<b>System Engineer</b> <b>SABIC</b> <ul style="list-style-type: none"><li>• In charge of securing and maintaining the plant network components.</li><li>• Upgraded obsolete network components during online operation.</li></ul>	<b>Aug 2010 – May 2012</b> <b>Jubail, Saudi Arabia</b>
<b>Intern</b> <b>Saudi Aramco</b> <ul style="list-style-type: none"><li>• Completed cooperative training at EXPEC ARC as a member of Computational Modeling Team.</li><li>• Developed a GUI interface populating the simulator output, large text files, into a database.</li></ul>	<b>Jun 2009 – Jan 2010</b> <b>Dhahran, Saudi Arabia</b>

## SELECTED PROJECTS

### [My YouTube Channel](#)

pytorch, jax, Jupyter

- I create videos explaining machine learning methods. The video starts by reading a paper or a book and ends with code.
- I cover topics like how a convolutional layer is implemented as matrix multiplication in pytorch.

### [VisionTransformer-MNIST](#)

ViT, pytorch, Jupyter

- Implementation of "An Image is Worth 16x16 Words: Transformers for Image Recognition at Scale", published by Google research.
- Vision transformers replaces CNNs as the preferred method for image classification.

### [Graph Convolutional Networks \(GCNs\)](#)

GNNs, GCNs, pytorch, Jupyter

- Implementation of the paper "Semi-Supervised Classification with Graph Convolutional Networks", which was published in ICLR 2017.
- Graph Convolutional Networks (GCNs) perform node classification in graphs.

### [ADDA](#)

GANs, pytorch, Jupyter

- Implementation of the paper "Adversarial Discriminative Domain Adaptation", which was published in CVPR 2017.
- ADDA uses GANs to perform unsupervised domain adaptation (UDA).

---

## SELECTED PUBLICATIONS

- **Mashaan Alshammari**, John Stavrakakis, Adel F. Ahmed, Masahiro Takatsuka: "Graph Construction using Principal Axis Trees for Simple Graph Convolution.", arXiv:2302.12000, 2023.

- **Mashaan Alshammari**, Masahiro Takatsuka: "Approximate spectral clustering density-based similarity for noisy datasets.", Pattern Recognition Letters, 2019.
- **Mashaan Alshammari**, Masahiro Takatsuka: "Approximate spectral clustering with eigenvector selection and self-tuned k.", Pattern Recognition Letters, 2019.

---

## SELECTED ACTIVITIES

### Journal Reviewer

- [Pattern Recognition Journal](#)
- [Neurocomputing Journal](#)
- [Information Sciences Journal](#)

### Conference Organization

- Program committee, 30th International Conference on Neural Information Processing (ICONIP2023), Changsha, China, November 20-23, 2023.
- Technical Program Committee, 7th International Conference on Data Science and Machine Learning Applications (CDMA2022), Riyadh, Saudi Arabia, March 1-3, 2022.
